# Transportation

Getting around Tulsa may seem like a tricky endeavor without a car, but don't despair. Tulsa Transit bus stops are conveniently located at each campus.

## Public Transportation

### Bus

TCC students can ride the bus for free to campus and around Tulsa. You need to pick up your ID and the current "TCC Rides Free" sticker from a Student Life Office before boarding the bus. The office is located at each campus. Please check [Tulsa Transit](#) site to check the route and schedules. They have a very nice real time [bus tracker](#) for you to see the current bus location.

Although it is not free, [Greyhound](#) offers cheaper fares within U.S., Canada, and Mexico.

### Taxi

Taxis are available in Tulsa; however, you will probably never catch a taxi on the street. You need to call them ahead of time. You can use this [taxi fare estimator](#) to get an idea of the cost. There are many taxicab companies available in Tulsa.

If you have a smartphone, you may want to check the [Uber](#) app and the [Lyft](#) app.

You may purchase a bike. Biking is a quick and cost effective way to travel short distances without needing a car. Also it is a way to stay healthy and fit. Here is the current [map of trails](#). These trails are secured for bikers and pedestrians. Some of Tulsa streets have sidewalks for you to bike on. However, please remember to be alert when you ride on the city streets.

## Car

### Car Rental

Many car companies are happy to rent vehicles to international students. To rent a car without an Oklahoma/U.S. driver's license, you will need a passport and an international driver's license.

Here are some reputable companies. These companies are also available at the Tulsa airport.

-  [Enterprise](#)
-  [Budget](#)
-  [Hertz](#)
-  [Avis](#)
-  [Alamo](#)
-  [National](#)
-  [Dollar](#)
-  [Thrifty](#)
-  [Payless](#)

### Purchasing a Car

If you are like the majority of students attending TCC, you may want to have your own transportation. You can buy a car from dealers or private individuals. When you purchase a car from a dealer, they will give you a temporary license plate which is good for 30 days. You must register the car to get a permanent plate within 30 days. You must also show proof of auto insurance coverage. It is against the law to drive a car without having insurance.

#### Before purchasing a car, make sure to:

- determine how much money you can afford to spend (keep in mind that auto insurance and registration cost extra \$400 and up)
- check [Kelly Blue Book](#) to compare the price
- test-drive the car (if it is possible, ask your friends or mechanic to accompany you on a test drive)
- ask for the history of the car (accidents, salvage, mechanical failure etc. If necessary, use a service such as [Carfax](#))
- make a rational decision (don't let the dealers impair your ability to think)
- check the mileage
- check the dealership and manufacture's warranty information

## Oklahoma Driver's License and Insurance

To obtain OK Driver's License, please check [Oklahoma Department of Public Safety](#) requirements. In addition, read [the Oklahoma Driver's Manual](#) carefully. Even though basic traffic laws and regulations are similar all over the world, there are still numerous differences you should be aware of.

[AAA](#), [GEICO](#), [Progressive](#), and [State Farm](#) currently support a foreign driver's license up to a year. Most insurers offer the Auto-Renters Insurance bundle discount. As for Medical/Health insurance, please contact [our office](#).
